

# OUR MOTHER THE MOUNTAIN

Our Mother The Mountain to release their debut single 'Sway

May 2023 marks the first release from 'Our Mother The Mountain' [OMTM] on Republic Domain records: "Sway" – will be the first of 3 demo singles to be released before their full EP called Blood and Bone.

Sway has a beautifully dark and foreboding tone, full of threat and dire warnings, perfectly drawn out with the beautiful sludge stirred up by the band to add to the wild maelstrom of a song Kris had whipped up.

This first song gives you a glimpse of the dystopian blues that echo out from the strange world of OMTM, a place filled with its own myths and legends that mirrors our own but with their own dark edges - irreverent, enraged, lost but not broken.

A voice that brings the thunder from the mountains

OMTM are a group of loose-fitting musicians centred around the songs and vocals of Kristian Saunders. Kristian brings the thunder to the mountains through his deep vocal delivery - echoed out of the valleys of his home in Wales - and dark and foreboding songs that resonate with a dark mythology of his own devising.

Under the shadows cast by Covid, the band created a dark musical escape with a lyrical mythology that captures feeling irreverent, enraged, lost but not broken. OMTM are currently putting the finishing touches to the Blood and Bone EP and are working on their live sound which will come like thunder to a town near you soon.

## REPUBLIC DOMAIN

This is the first release from a new collective called Republic Domain, our mission is to do things slightly differently and collaborate with many kinds of artists and creative businesses to produce creative works anyone can be part of.
